READING

School Council, in conjunction with the staff at CPS, have prioritised the resource acquisition this year of reading materials and resources to ensure the provision of a quality reading program which allows for maintaining our books in excellent condition. Book bags have been purchased and provided – one per child.

More books have been purchased, categorised and streamlined to ensure staff and students have access to books targeting the correct level for students (Just right books).

Students are being provided with access to books which they read at school and take home which increases their daily reading opportunities. Caring for the books provided is the responsibility of each student. Parents can assist their child/ren to look after books borrowed from school by checking book bags and ensuring the borrowed book is returned, ensuring younger siblings do not have free access to the school books.

Curriculum

NAPLAN

Naplan (National Assessment Program – Literacy and Numeracy) takes place this week in schools across the country. It involves students in Years 3, 5, 7 and 9 from all states and territories in Australia.

The tests assess student skills in four areas - reading, writing, language conventions (spelling, punctuation and grammar) and numeracy. They do not necessarily reflect the curriculum content being addressed at the time of the test. Rather, they call on students to apply strategies, rules and concepts covered in literacy and numeracy previously to answer test questions.

The test results provide information to you on how your child is progressing and performing in the key areas of literacy and numeracy.

Once we are provided with the student achievement data, we will be looking at the sets of data to identify future teaching and learning opportunities for our students.

Assistant Principal

Physical Education at Cranbourne Primary School

The main focus at Cranbourne PS is on the important role that physical activity, sport and recreation needs to play in the lives of our students by providing opportunities for challenge, personal growth, enjoyment and fitness. It develops students' confidence in using movement skills and strategies to increase their motivation to become active as well as improve their performance and maintain a level of fitness.

Students have the opportunity to participate in a variety of programs.

Children's natural energy and enthusiasm can be channelled into experiences where they learn about their bodies, about themselves, and how to cope with others when sharing in movement, games and skill-based activities. We encourage you to have a role to play, too. You are in a unique position to support and guide your children in developing skills. Children enjoy playing with their parents and believing they can win.

Get involved in the School Banking program.

You can get involved in the School Banking program by opening a Commonwealth Bank Youthsaver account at any Commonwealth Bank branch, over the phone on 13 2221, or via NetBank if you are an existing customer with NetBank access.

Remember to take in identification for you and your child (driver's license and birth certificate). You will receive a Dollarmite's wallet and deposit book that your child will use to participate in the program.

Our school receives \$5 when a student makes their first ever School Banking deposit and 5% on every deposit made through the school (to a maximum of \$10 per individual deposit).

Thank you for supporting our school and helping to teach your child the benefits of saving regularly.

Friday

is School Banking day! Put your Dollarmite Bank Book into the banking pencil case in your class so it can be processed Friday morning! Ten deposits will allow you to choose one of the great prizes shown below! Start saving and watch your savings grow!
