PRINCIPAL'S NEWS

What a wonderful day for our CPS student led Carnival. The sun provided a spring atmosphere which was evident in the smiling faces of our students.

Congratulations to our senior staff and students. Today's event was the product of a term of preparation, including:

1. reaching out to our community, seeking donations, (which were used as prizes throughout the carnival event),
2. Advertising the Carnival within the school
3. Preparing the activities and explanations for participation, including rules
4. Organising the prizes
5. Setting up & leading the events

Head Lice

It has come to our attention that some students in the school may have head lice and we seek your cooperation in checking your child's hair.

Head lice do not transmit infectious diseases – they are transmitted by having head to head contact with someone who has head lice. You may be reassured to know that head lice are commonly found in places other than Cranbourne Primary School. Head lice are common in school-aged children and are the most adaptable of creatures. They have survived living solely on humans for 10,000 years!!!

What can you do?

We seek your cooperation in checking your child's hair and in those instances where head lice or eggs are found, treating your child's hair.

If head lice or eggs are found on your child's hair you need to inform:

- the school and advise when the treatment has started.
- parents or carers of your child's friends so they too have the opportunity to detect and treat their children if necessary.

When can my child return to school?

Health regulations requires that where a child has head lice, that child should not return to school until the day after appropriate treatment has started. Please note, this refers only to those children who have live head lice and does not refer to head lice eggs.

Cranbourne Primary School is aware that head lice can be a sensitive issue and is committed to maintaining your confidentiality.
